# Linguistics Club

Hi!

嗨

Hola!

## Summary of Activity

Let's burst the myths ! First, no knowledge of foreign languages is needed. Secondly, you are not asked to join a club where you are going to learn a new language. Finally, you do not need to have any experience of linguistics (the science of languages). So what are you to expect? Well ...

Our linguistics club aims to practice a wide range of skills, mainly decoding. It is like being in the shoes and the brain of a spy who can crack a code to communicate. Together we will explore one aspect of linguistics (sounds, words, meaning, grammar) and apply it to a language problem / puzzle based on a particular world language, such as Romanian, Latin, Greek, Zulu ... and many more! So come and have a go! You will be simultaneously working your memory, logic, deduction, pattern-finding and creative skills. Our club also aims at promoting individual perseverance and team-building skills. Furthermore, you will get the opportunity to increase your cross-curricular knowledge from the activities you undertake, including culture, citizenship, geography, history and mathematics.

## Why Join Us?

- Make new friends and develop a similar interest in logic puzzles.
- Develop a wide range of skills (communication, problem solving, deduction)
- Participate in the UKLO - the UK Linguistics Olympiad (a national competition)

**Activity Timing:** 3pm - 4pm Wednesday

**Activity Location:** Room 121

**Who can join?** All Year Groups Welcome.

**Activity Leader:** Mrs I. Arnett - Curriculum leader for MFL & EAL.

- You will gain confidence in reading aloud
